2) Registration costs **Euro 16,00** per modeller, which will be cover part of the exhibit expenses.

Registration to the contest implies the acceptance of the present rules. The contest is open to all national and foreign modellers, whether they be Clubs or individual modellers.

ALFA MODEL members cannot take part in the contest.

The organization reserves the right to reject models not compatible with the contest's model type characteristics.

JUNIORES under 18 years of age do not need to pay for registration.

3) The contest is "OPEN" and is divided into the "STANDARD", "MASTER" and "BEGINNER" sub-categories only **for the historical Figures** (Category E), whereas the "STANDARD" e "MASTER" sub-categories are available for Categories A, B, C, F, G, I e L, that is, excluding category D - Civil vehicles and dioramas, which has a unique sub-category comprising everyone.

The "MASTER" category is suggested for all modellers who have already received national and international prizes; however, this doesn't mean that other modellers who think that they may be eligible for this high-level competition may not register in this category. The organization reserves the right to register modellers of known experience and merit, as "MASTER". It will be possible to present one's models as a **DISPLAY**, the realization of which will be the modeller's responsibility, the display occupying a max space of cm 30 length x cm 20 depth. Displays with dimensions over cm 30 x 20 need to be notified to the organization in advance and the organization reserve the right to reject them.

The organization reserves the right to transfer the displays to the appropriate category, in case of incompatibility with the category chosen by the modeller.

A "diorama" is defined as a model containing at least a large vehicle or aircraft ad two figures, in an environment, while "small scene" (scenette) is defined as a model including at least four figures.

4) The Juries will be composed of modellers and collectors.

The Juries' judgment is unquestionable. However, participants may question judges for clarifications, but only after the competition ending and in a courteous way. The Juries and organizers are not to be held responsible for model ownership.

5) CONTEST and SPECIAL PRIZES are also to be given out.

For more info, please consult the website <https://www.alfamodel.it/>. The models registered for the competition will automatically be registered to the appropriate contest category.

6) MODEL SUBMISSION: will take place on Friday March 27 from 3 to 7 p.m. and Saturday March 28 from 9 a.m. to 3 p.m., in the exhibit room of the Hotel Villa EUR, P.le Marcellino Champagnat 2, 00144 Rome. Each modeller must turn in both the models and the print of the registration form filled in online. In case of the modeller registering at the moment of model submission (in case of the impossibility to pre-register online), he/she will need to turn in a legible list of models and their description, category, etc., so as not to slow down the registration process. **Incomplete registration forms will not be accepted.** It is

possible to display models in a display case property of the modeller. The ALFA MODEL Association will set up a surveillance service so as to preserve the models' integrity; however responsibility for theft or damage to models is declined by the Association. We also point out that the organizers reserve the right not to display models, which are too fragile or offensive to the public.

From February 20 to March 25 online pre-registration will be open on the www.alfamodel.it site, which fact will accelerate model registration.
